

SAPPHENIX PARTNERSHIP MENU™

Licensing the Sapphenix Wellness Operating System™

Sapphenix is a licensed wellness operating system that organizations install internally.

Built on the Burnout Arc™, the WELLTH Model™, and the Sapphenix States™, the OS strengthens emotional regulation, prevents burnout, and improves performance across teams.

Organizations don't hire Sapphenix to run workshops.

They license the OS, train internal facilitators, and run the system themselves with our tools, scripts, and monthly rhythms.

Before choosing a partnership tier, leadership can preview the system.

EXECUTIVE DEMO (Free — Not a Partnership Tier)

A complimentary observer seat inside a live Burnout Prevention Session (BPS) for 1–3 decision-makers.

Purpose: Preview one OS Module before purchasing a partnership tier.

Included:

- Execs attend the BPS as **observers**
- Watch the OS Module delivered live
- See the frameworks in action
- Optional debrief conversation afterward

Not Included:

- No community seats
- No diagnostic
- No toolkits
- No materials or slides
- No replay
- No internal delivery rights

This is *not* a pilot and does *not* include organizational benefits.
